RUSSIA HOLDS TO ORIENTAL NAVAL POWER

District Attorney To Institute Mandamus vs Merriam

ATTORNEY GENERAL UPHOLDS REGISTRAR

Attorney General Andrews this forenoon delivered an opinion to Treasurer Campbell regarding the question of filing or recording of plans in the Registrar's office. While the Attorney General cannot give out the text of the opinion it appears certain from other sources that the opinion is in favor of Registrar Merriam's contention that plans can only be filed but not recorded in his office.

The matter was brought up by United States District Attorney Breckons, who wanted to record a judgment by the United States District Court giving the United States the title to a certain lot at Waikiki by condemnation proceedings. While there is nothing in the law providing for the record of such judgments Registrar Merriam consented to record it, but when Breckons wanted the plan of the lot recorded, Merriam declined to do this, stating that under the law it could merely be filed but not recorded.

In former years, when T. G. Thrum was Registrar, the system of recording of blue print plans in the books was inaugurated. This proved to have many objectionable features and the last Legislature enacted a law making it unlawful for the Registrar to accept any plan for record. Under this new law the Registrar can file plans, provided that they comply with certain conditions.

The Attorney General in his opinion sustains Merriam in his contention that he can not record the plan as Breckons wishes. The result thereof has been that Breckons has written to the Attorney General at Washington asking permission to institute mandamus proceedings against Merriam for the purpose of ordering him to record the plan.

Registrar Merriam this forenoon pointed out that the new law offered many advantages. Under the old system of recording plans it became necessary very often to reduce plans to such a small scale that they could be contained on the pages of the record books, and this entailed much trouble and expense. It also necessitated much labor whenever a certified copy of such a plan was wanted. Under the

system of filing the plans on tracing cloth the matter of making copies becomes a simple one, especially as the Registrar will soon install a blue print plant in his office, so that the copies can be made very easily and quickly. There was this further objection to the old system that some plans were so large and detailed that to reduce them to the scale required for recording them in the books was a physical impossibility, and there was no provision under which they could be filed. Thus, for instance, the plan of the Waikiki ditch, an 8-foot map of six miles of country, which it was impossible to reproduce, had to wait for three years, until the passage of the new law, before it could be accepted in the Registrar's office.

SIX PHYSICIANS EXAMINE YAMAMOTO'S ORGANS

The heart and kidneys of Yamamoto, the Japanese who is alleged to have been killed by Engineer Douse at Punene, were yesterday examined by Drs. McDonald, Cooper, Sinclair, Kobayashi, Mori and Ushida in the presence of Deputy Attorney General Peters.

The bag containing the viscera in which the organs were preserved in alcohol, was ceremoniously opened by Peters, who broke the seals which Drs. Weddick, Dias and Suga, who made an examination in Walluku, has placed thereon.

The heart and kidneys were then fished out from the preserving fluid and examined by the doctors who each took a slice of the heart and kidneys. The remainder was stowed away again in the glass containers. The physicians will prepare histological slides from the samples they have taken. This process will take some little time. Deputy Attorney General Peters, who is himself a histological expert, having studied that branch of science for several years, gives an excellent account of the method pursued, but this matter is too technical to be of interest to the general public.

Leonard Withington, son of D. L. Withington, left on the China yesterday to take up his studies in Harvard Law School.

PINEAPPLES

By the S. S. Alameda, Aug. 30th, the Tropic Fruit Co. will make its next shipment of choice pineapples to the mainland. Leave orders at Wells, Fargo & Co.'s office, King St. PHONE MAIN 15.

HAWAII'S UNPARALLELED CREDIT

EVIL OF DIVORCE PREVALENT HERE

Present Year Record Far Larger Than Those Of Old

DECREES ARE ALMOST CONSTANTLY SOUGHT

MORE DIVORCES LAST 6 MONTHS THAN WERE FORMERLY GRANTED IN WHOLE YEAR.

The growth of the divorce evil is as evident in Hawaii as it is elsewhere. There are even many of the Judiciary building oracles who say that the number of divorces here in proportion to the population is far greater than on the mainland. It is certain that during the last few months, especially during the vacation of the courts, when the judges have more time to spare for chambers matters, the divorce mill has suffered from no lack of grist, there being a divorce suit heard almost every day.

The matter has been remarked upon and discussed to some extent among the frequenters of the Judiciary building, who have the spectacle of the continuous divorce suits constantly before their eyes. It has been contended by many of the old-timers that the number of divorces at the present time far exceeds those of former years, and the records of the court seem to bear this out.

The record for the present year shows that during the six months from February 18 until today there have been no less than 54 divorce suits in the local circuit. Ten years ago in 1895, only fifty divorce cases were recorded and the record for 1885 shows only 47. Both the latter figures are (Continued on Page 8.)

Records In Plenty Are In Existence To Support English Examinations

SIDELIGHTS ON ALIEN PHYSICIAN APPEAL

Those engaged in the business of practicing the medical fraternity in the interests of the Japanese are having a hard time of it.

The other day they were saying that the rule, requiring applicants for the practice of medicine to take their examinations in the English language, was not on record. They have said various other things which show that either they don't know or don't want to know, and are really more enthusiastic in having the Japanese granted special favors than in holding to the usual rules.

When the Medical Examining Board was made up of Drs. Taylor, Andrews and Wayson, these gentlemen wrote to the Treasurer of the Territory, who has the authority to approve regulations, as follows under date of July 29, 1901:

"We respectfully request that on and

after September 1st all persons applying for examinations for licenses to practice medicine in the Territory of Hawaii shall be required to undergo their examinations in the English language and thus dispense with the service of an interpreter, which is unsafe, uncertain and not at all satisfactory as we are entirely at the mercy of the interpreter and have no means of knowing whether or not the interpretation is honestly and correctly made."

Treasurer Wright under date of July 26, responded to the letter stating that "Your request meets with my approval."

These letters are matters of official record and consequently there can be no doubt of the perfection of the record as far as this regulation is concerned. The alienizers will respond with blackguarding Wright and explaining how (Continued on Page 8.)

CHINESE BOYCOTT

THINK TRAVELING MEN

SOON TO BE LIFTED

The Chinese boycott of American goods is already having a marked effect on trade conditions in the Orient, according to passengers on the steamer China yesterday. At the same time, the Chinese merchants are manifesting dissatisfaction over the boycott and the opinion is quite generally held that it is a matter of a few months only.

"Here is an instance of the working of the boycott," said a traveling man yesterday. "I have a friend who travels for an American novelty house. He had a very fine line of stereoscopic views. Now, although it is not generally known, the heathen Chinese is very fond of amusing trifles like these and a big business has been done in them."

"The American traveling man went to a big Chinese merchant in Shanghai and showed him the stereoscopic views. The merchant gave him a big order, and then casually asked where they were made. 'In America,' said the seller. 'I'm sorry said the merchant, but I can't buy any American goods. I would like to do it but can't, until the boycott is raised.'"

"This is an example of what is going on all the time there. Traveling men naturally are feeling the effects keenly. But from their intercourse with Chinese merchants they believe that the boycott will be lifted shortly."

A Kodak is a delight in the home. With it you are enabled to obtain pictures of beautiful scenes of family life which tomorrow may be beyond the securing. With a Kodak, nature and her creatures live over in your album for the lasting edification of yourself and friends. Honolulu Photo-Supply Co.

GOVERNOR CARTER

WRITES

PLANS UNCHANGED

Governor Carter's children have received letters from Mrs. Carter, who is at present with the Governor at Lake Tahoe, stating that there will be no change of the plans of the Governor and herself, and asking them to be at the steamer to meet them. The Governor's plans have been to return in the steamship Mongolia, which leaves San Francisco August 26 and is due to arrive Sept. 2. The Acting Governor has received no advice from Carter lately.

Allan Dunn, who has many friends in Honolulu, recently did some good missionary work for Hawaii at Portland. He delivered an address on "The Booklet in Advertising" before a great gathering of advertising men, making numerous complimentary reference to these islands, his remarks being generously quoted in the mainland press. Dunn is chief of the pamphlet and booklet department of the Sunset Press, San Francisco.

THREE POINTS STAND BETWEEN PEACE AND WAR

(Associated Press Special Cable)

PORTSMOUTH, N. H., Aug. 18.—The article of Japan's peace demands which bears on the limitation of Russia's naval power in the Orient has been the topic of discussion by the representatives of Russia and Japan for two sessions.

The conference adjourned to Tuesday, when the protocols will be drawn up.

The payment of an indemnity, the cession of the island of Sakhalen and the surrender of the interned warships are the crucial points of difference.

Infernal Machine Is Sent To Schiff

(Associated Press Special Cable)

NEW YORK, N. Y., Aug. 18.—An infernal machine sent to Jacob Schiff, a member of the financial house of Kuhn Loeb & Co., has been put in the hands of the police.

Many Slaughtered In Train Wreck

(Associated Press Special Cable)

NORFOLK, Va., Aug. 18.—Twelve persons are known to be dead as a result of the wreck yesterday of a train carrying colored pleasure seekers. This number of bodies has been taken from the wreck and eighty colored excursionists are missing.

Fever Increasing

(Associated Press Special Cable)

NEW ORLEANS, La., Aug. 18.—Twenty-six new cases of yellow fever are reported today with six deaths.

SAN FRANCISCO, Cal., Aug. 17.—SUGAR: 88 analysis Beets, 9s 9d. Previous quotation, 9s 11 1/4d. Parity for Centrifugals, 4.04 cents.

New York, July 24.—An order was within their borders. These States issued today by Commissioner Watson formed the Commissioner that emigration prohibiting the sale of cigars direct from Ellis Island were set on Ellis Island. The order was bringing West cigarettes in large quantities, with which to supply the friends and relatives, who were unable to buy them.

A POPULAR SHOE

We have just opened a shoe that promises to become very popular in Honolulu and for every good reason. It's a swell summer Oxford made of light weight tan calf by the celebrated firm of E. P. REID & Co. the price is only

\$3.50

and this taken in connection with style, fit, ease and elegance of this shoe should insure a ready sale among women who desire a really good shoe at a reasonable figure

N. B. We carry more styles of \$3.50 shoes than any other firm in town. This fact means a fit in every case.
